

GLOBAL LEARNING PROGRAM

Mission Statement

Inspired by the example of global citizenship of the Brothers of Christian Instruction, the Office for Culture and Belonging provides opportunities for students to develop into leaders in service with an international perspective. Study Beyond promotes learning which transforms the student, the university and the communities which they serve.

Vision Statement

The Office for Culture and Belonging seeks to:

- Demonstrate a concrete impact of global service on students, the Walsh and local communities and the world.
- Increase global connections through more varied programs in multiple destinations throughout the world - and to bring more connections to the Walsh campus
- Develop and sustain learning communities which promote servant-leadership and global citizenship across university constituencies
- Achieve national recognition as a global institution

To learn more about upcoming Study Beyond programs, how to apply, or for general information about study beyond, visit our Abroad Office (<http://walsh.abroadoffice.net/>) or Study Beyond webpage. (<https://www.walsh.edu/study-beyond.html>)

Why Study Beyond?

Our students develop:

- An increased independence and self-confidence
- The ability to earn credit toward a degree while experiencing
- Different cultures and customs
- An opportunity to learn and put to use a new language
- An enhanced global perspective important to today's employees

Apart from the academic component of these ventures, an extended period of time abroad offers a cultural immersion, an opportunity to examine habits and attitudes different from those at home. Participants in Walsh University's Study Beyond Programs accept challenges different from those on our campus, and return to North Canton with a larger view of the world, a deeper understanding of its peoples and a stronger sense of themselves. The Office for Culture and Belonging encourages students to explore our overseas opportunities and facilitates the study abroad process.
