

SCHOOL OF BEHAVIORAL AND HEALTH SCIENCES

Dr. Jo Anna Kelly, SBS Chair
Dr. Kelsey Scanlon, EXS Chair

Mission

The mission of the School of Behavioral and Health Sciences is to provide high quality innovative educational programs which foster academic excellence rooted in scholarship and evidence-based practices. Academic excellence embodies critical thinking, effective communication, creativity, life-long learning and an orientation to interdisciplinary and global learning. We challenge students in the academic programs to examine their personal values and respect the uniqueness, human dignity and cultural backgrounds of all people. Our students become leaders in service who demonstrate ethical and professional behaviors and advocate for the rights, health and welfare of all human beings. We encourage individuals to act in accordance with and guided by the example and teachings of Jesus Christ.

Vision

Through our academic programs, the School of Behavioral and Health Sciences engages faculty and students in research and in efforts to improve the quality of human and community life. We aspire to promote innovation, interdisciplinary collaboration, global and domestic service and advocacy for the under-served.
